

TUTORIAL

1.

Choose an image.

2.

Extract the subject.

3.

Play the required action.

4.

Enjoy the results.

NOTICE:

For the action „full image“ you don't need to extract a subject. Just open an image and play the action.

TIP:

If the strokes are too big in the final result, enter the smart object until the last one, increase the document size and save.
