Font: [https://fonts.google.com/specimen/Roboto+Condensed?preview.text\\_type=custom](https://fonts.google.com/specimen/Roboto+Condensed?preview.text_type=custom)

# How to use

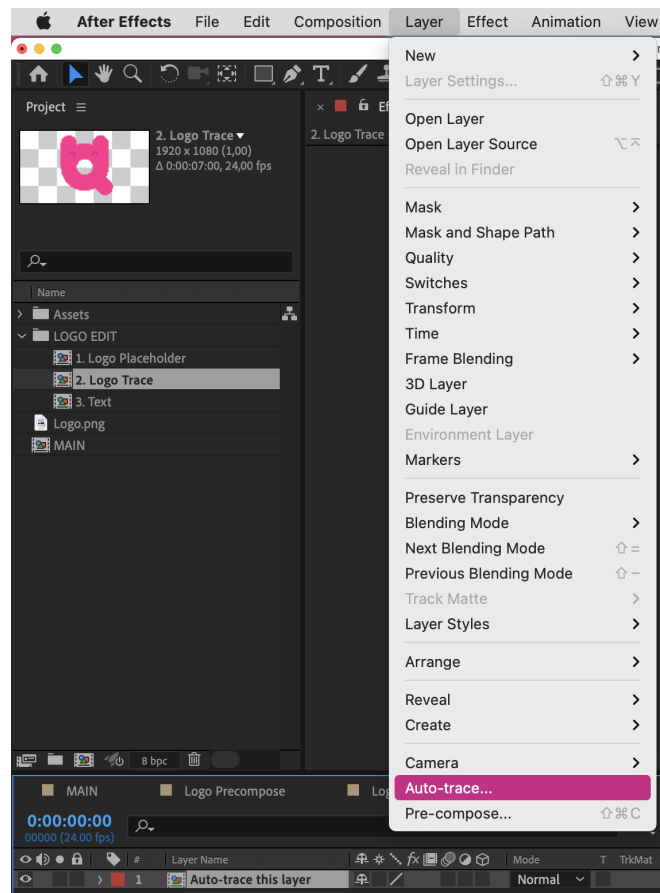

## 1. Paste your logo

- 1.1. In the Project panel go to the **1. Logo Placeholder** comp and drag and drop your PNG logo into the composition.

Then scale it to fit comp size.

- 1.2. Open **2. Logo Auto-Trace** composition.

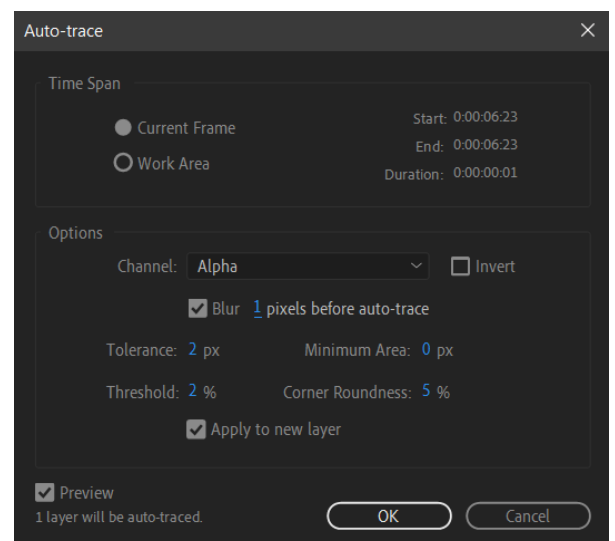

There is a layer called **Auto-trace this layer**.  
Click to select it then go to **Layer>Autotrace...**

1.3. in the Auto-trace window set the next values:

Blur	1px
Tolerance	2px
Threshold	2%
Minimum Area	0px
Corner Roundness	5%

- Turn On Apply to the new Layer
- Turn On Preview Checkbox

1.4. Press Ok and go to the **PREVIEW comp to see the result.**

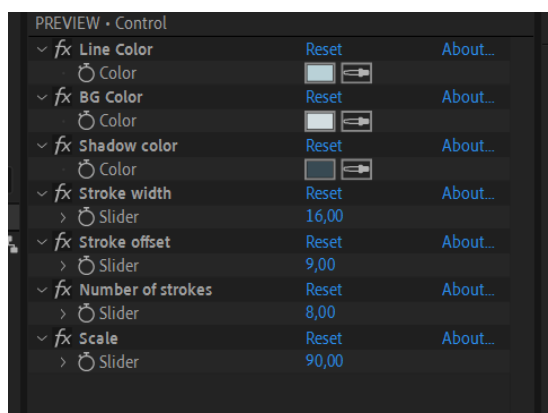

NOTE: If you want to change or resize the logo in the Logo Placeholder composition you need to delete the Auto-traced layer and do the auto-trace again.

## 2. Change the Text

Open **3. Change Title** comp and Find «**your logo**» text layer and doubleclick on it to change it. Then back to PREVIEW comp and preview the result.

## 3. Customize project

Open **PREVIEW** comp and click on the Control layer. You will see a couple of controls in the Effects Control panel:
